A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- a case having a first surface on the outside of the case (surface of ink cartridge covered by top wall, Fig. 1a) and a second surface on the outside of the case in mutual opposition (bottom outer surface of ink cartridge, Fig. 1a), the first surface being open (open if top wall is removed, Fig. 1a);

- a first cover (top wall of cartridge, Fig. 1a) for covering the first surface;

Art Unit: 2861

- a partitioning wall (4) for separating the interior of the case into a first chamber (5) and a second chamber (9), respectively, for holding the ink;
- a porous material (6) accommodated in the first chamber;
- an ink filling hole (10) formed in the first cover for filling the first chamber and the second chamber with ink;
- and a pressure reduction hole (8) for reducing the pressure in the first chamber and the second chamber, wherein the first chamber and the second chamber are connected near the second surface inside the case (connected by 11).
